

Typhoon Turntable Washer and Vacuum Dryer for Used CSD Components

MODEL # HD-40-36-S-2000-3-RD-BO-SS

PROGECO Exclusive Features:

- Environmentally friendly - no solvents. Bio-degradable commercial detergents only.
- Re-circulating principle - water-based cleaning solutions conserve energy, detergent and water.
- Power spray principle - produces high-quality and high-speed cleaning.
- Low chemical cost - 3 to 5% detergent in water.
- Low energy cost - spray cabinet and tanks fully insulated, programmable heating systems.
- No health hazard to workers.

PROGECO[®]
Integrated Cleaning Solutions

Typhoon Turntable Washer and Vacuum Dryer for Used CSD Components

Scope

Workpiece.....	Constant speed drive components
Application	Cleaning and drying during overhaul
Cleanliness	Positively free of oil and grease and dirt
Dryness	Perfectly dry

Features

Benefits

4-stage process	Perfectly degreased and dried parts
Recirculated alkali wash	
Recirculated water rinse	
Recirculated de-ionized water rinse,	
Vacuum drying	
Sound enclosure	Reduces noise levels to 70 decibel
Loading boom	For efficient loading and transferring of parts from washer to vacuum dryer
Integrated work platform.....	For operator safety and ergonomics
Zero-discharge process	No effluent to sewers – no environmental impact
Re-circulating principle.....	Conservation of water, energy and detergent
Thermal insulation of machine and 7-day heating program.....	Energy conservation

Technical Data

Turntable diameter	40" / 1,000mm
Clear height over turntable	36" / 900mm
Turntable load capacity	2,000 lbs / 900 kg
Wash tank volume	350 USgal / 1,300 liters
Detergent concentration	Turco Aviation @ 2–4% in water
Tank change-over	Every 2 – 3 months
Connected power.....	460V - 3PH - 60Hz - 55A / 380V - 3PH - 50Hz - 70A (steam heating)
Floor space requirement	16' W × 18' L / 4,8 m W × 5,5 m L
